VOL. XXXV. NO. 45

ANTIOCH, ILLINOIS, THURSDAY, JULY 15, 1922

\$1.50 PER YEAR

BIG CROWD AT FARM BUREAU DECENNIAL

Lake County Holstein-Friesian Association Has Attractive Floats

OVER 25,000 ATTEND

A crowd of Farm Bureau folks, conservatively estimated at from 25,000 to 30,000, overwhelmed Dekalb last Friday at the Farm Bureau Decennial and made the occasion of the Farm Bureau's tenth birthday the greatest gathering of farmers ever held in the United States.

The parade began at nine-thirty in the morning. For half an hour crowds lined the streets while past them floats representing 65 county farm bureaus of Illinois, as well as floats of state federations and the American Farm Bureau Federation. Soil testing, chinch bug eradication, soy beans, legislative, marketing, dairy products, fruits—these are only a few of the activities displayed in vivid colors and striking decoration.

The float displayed by the Lake County Farm Bureau illustrated the Better Sire Campaign conducted here during 1918, 1919 and 1920. The first part of the float was an old Ford car which had seen several summers without a coat of paint. A crate was made to fit in the back seat and in the crate an excellent likeness of a scrub bull, cut out of heavy board and appropriately painted. A sign above the car told the average income from cows of scrub breeding.

Following this was a truck decorated with yellow crepe paper and bearing a very fine Holstein bull. The two cars illustrated the before and after effect of changing from scrub sires to pure bred sires, with a difference of \$63.00 per year from each cow in favor of using pure bred sires.

The Lake County Holstein-Friesian association had one of the most neatly decorated floats in the parade. A large box affair made of beaver board, and mounted on a truck, formed a frame for a typewriter. The typewriter was stanchioned on the truck. The lettering on the float told of the size of our Lake County association and some of its accomplishments, especially featuring the number of Holsteins from this county at the Dixon A. R. O. plant. Lake county has three times the number from any other county.

The morning program was opened with an address of welcome by Henry H. Parke, of Genoa, who has been called the pioneer of the foundation of the Illinois farm bureau movement. It was on Mr. Parke's farm that the first meetings leading toward a farm bureau were held as early as 1902.

Following Mr. Parke, Howard Leonard, I. A. A. president; James R. Howard, president of the American Farm Bureau Federation; Eugene Davenport, ex-dean of the College of Agriculture of the University of Illinois; and Gov. J. A. O. Preuss, of Minnesota, gave addresses. Ex-Gov. Frank O. Lowden, of Illinois, was to have spoken, but was prevented by showers which blew up at the noon hour.

"New facts continually brought to light by scientific investigation are made available for common good thru the county farm bureau," said Mr. Howard. "We grow by giving as well as receiving. New contracts broaden sympathy and character. The challenging of serious thought makes men great. Responsibilities broaden men. Thus millions of farmers are bigger and better today because of the Farm Bureau. They have become not only bigger and broader farmers, but also better citizens."

"In the ten years since the start of the Farm Bureau," said Gov. Preuss, "it has been a most potent agency, not only in promoting co-operative marketing, but also in spreading the gospel of better farming, better cattle, better seed and better cultivation. These things, after all, mean more to the prosperity of the farmer than anything that can be done by your legislative and administrative officials."

(Continued on Page 5)

20 Years Ago in Antioch

Thursday, July 17, 1902
John Engman was transacting business in Chicago Tuesday.

The Misses Beck of Sheboygan, Wis., are guests of Mr. and Mrs. William Ziegler.

Abe Crowley presented J. J. Burke with a nice mess of fish Saturday for which he wishes to extend most hearty thanks.

Mr. and Mrs. Will Gray want to Chicago Tuesday where Mrs. Gray entered a hospital for an operation.

Mr. and Mrs. C. B. Little of Chicago, spent the latter part of last week at the Ramaker house, and also called on Antioch friends.

Hermey Beck was transacting business in Kenosha Monday.

R. C. Higgins and Miss Mable were Milwaukee visitors Monday.

Miss Myrtle Ziegler of Mendon, Mich. is visiting her brother, W. F. Ziegler.

Ira Boylen of Chicago spent Sunday with Antioch relatives and friends.

Bert Bown, who has been in the employ of the Grice hotel left on Monday for London, England, where he will visit with his parents for the next two months.

Master Peter Burke, the three year old son of J. J. Burke, met with quite an accident Tuesday afternoon by being run over with a pony driven by Pete Peterson, particulars of which are as follows: The little fellow, in company with George Garland was standing on the sidewalk as Peterson started out of Mr. Garland's yard with the pony, which became unmanageable and ran away knocking the child down and cutting quite a gash in his head, which required three stitches. Dr. Anderson dressed the wound and the little fellow is getting along nicely.

On Tuesday evening the council tried the new hand engine that they recently purchased. It has the necessary power to throw water over any building in town and as a temporary protection from fire will no doubt answer the purpose until a system of water works are provided. Now for that cement sidewalk ordinance, as our walks are in a delapidated condition.

Lake Villa Days Will Be Held on August 11 and 12

The Lake Villa Township Commercial Association has announced the dates for Lake Villa Day as Friday and Saturday, Aug. 11 and 12. Two days of amusement and excitement, starting each day with a baseball game at ten o'clock. A horse show, two-mile steplechase, outdoor dancing and a beautiful midway will be some of the other features presented.

This year's show will be held two days through the request of many people who cannot attend on Saturday, and will be larger and better than before. The attendance for one day last year was 5,800.

TEN-INNING GAME GOES TO WILMOT

Sunday's Scores

Antioch 5, Wilmot 6, 10 innings.
Lake Villa 20, Grand Billiards 7.
Renchans 19, Kenosha Bakers 14.
Libertyville 8, K. of C. Waukegan 7.
Polonia Club 11, Opeka 6.
Silver Lake 11, State Line 8.

Wilmot defeated Antioch Sunday at Antioch by a score of 6 to 5. The game proved to be a pitchers battle between Edgar and Bixby. Edgar got the best of the argument, letting the Antioch boys down with nine hits, Bixby being touched for 14. Bixby struck out thirteen Wilmot men while Edgar had ten strikeouts to his credit. The game lacked the pep displayed at previous games. Even the crowd was unusually quiet, the heat probably being the cause of it all.

Antioch had two new men in the lineup, Thomas at third and Treffinger catching. Thomas had one opportunity to show his wares on a ground ball in the fifth which he handled in good shape, getting his man at third, and in his four trips to the plate got a sacrifice, getting a man home. In the fifth he started a rally with a clean hit, but getting caught at the place on Treffinger's sacrifice. His next two trips to the plate brought a short fly and a trip to first via the error route.

Treffinger did not show up so well at the bat but handled Bixby's delivery very creditably. In his four times at the bat he got a hit, stole second and scored on an error by Edgar, fanned twice and hit one to Homer at second for an easy out.

Wilmot started the run-getting in the second. With a three-bagger by Malloy and a short left hit that was allowed to go safe, scoring Malloy. Nelson got to third on Boyle's double, but Bixby tightened up and struck out the next two men.

Antioch came back in the half with two runs, George Fiala getting on on an error by Homer, Bixby hit to center, L. Fiala scored both men with a double to left center.

Antioch increased their lead in the fifth, when Thomas, the first man up, hit safely and got to third. L. Fiala fled to right field, Treffinger hit to Malloy, getting Thomas at the plate. Treffinger getting to second. Monat hit to short right, Treffinger getting to third. L. Hook hit one to Edgar who threw wild to first, Treffinger scoring. Molinaro struck out.

In the sixth Wilmot tied the score up, Edgar getting a two-base hit, Malloy fled to Bixby, Nelson hit one through the pitcher's box, scoring Edgar. Malloy getting to second, from where he scored on two passed balls by Treffinger.

The game ran into an extra inning and in the tenth Homer landed safely. Edgar struck out, Malloy was passed, Nelson struck out. Boyle hit to right, scoring Homer. Hegeman pinch hit for Rozak, scoring Malloy and Boyle. Britz hit safely, but Merle ended the agony by laying out to G. Fiala.

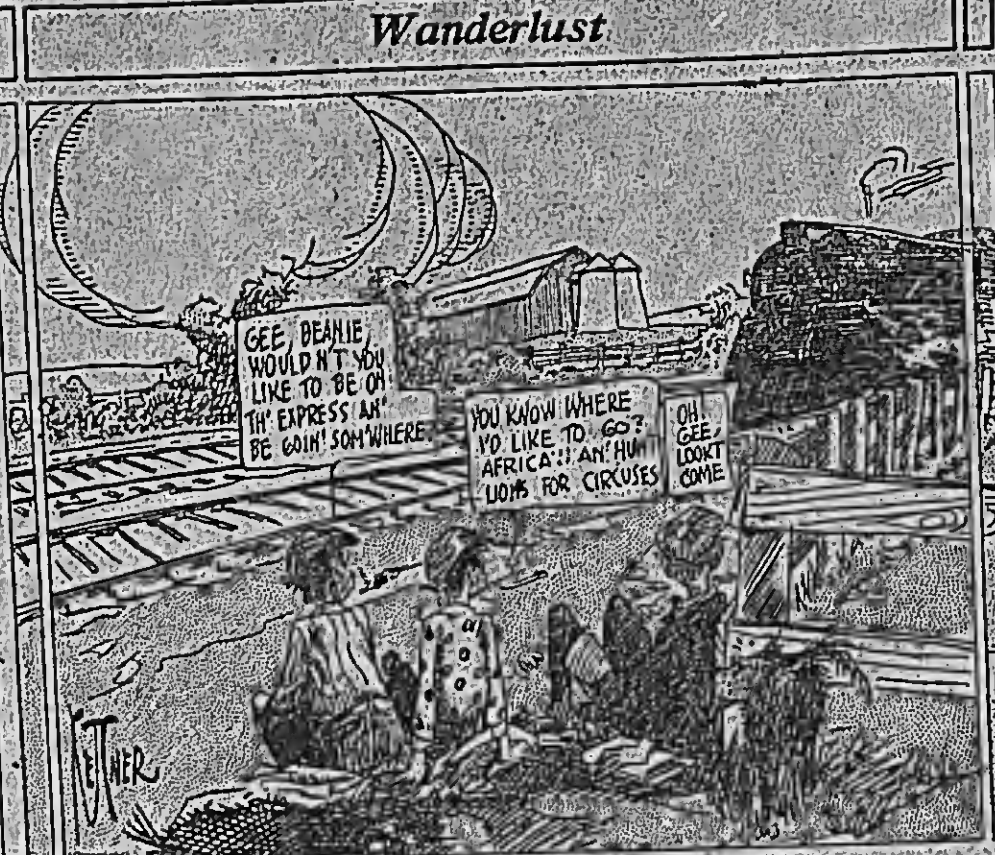

The local team made a strong attempt to rescue the game. "Red" Fields was sent in to hit for Monat and clouted the ball to right for a single. L. Hook came across with a two-bagger. "Red" scoring. Molinaro fled to Britz. "Red" was sent in to pinch hit for G. Hook, but struck out. Fiala got one to his liking and took two bases on it, scoring L. Hook. Bixby was the next man up, and although Nelson was instructed to pass him, Bixby hit at a high one, laying down a weak grounder to Malloy, who threw him out at first, ending the rally.

*Rattler for Monat
and F. Hook.

Antioch will play the Grand Billiards of Waukegan next Sunday. This team beat Antioch 11 to 2 June 11, and the local boys are out for revenge.

Lake Villa beat the Grand Billiards of Waukegan last Sunday at Lake Villa by a score of 20 to 5. Pederson, the Grand Billiards crack pitcher, was got to in grand style in the first inning by the Lake Villa team, they succeeding in scoring eight runs before Pederson was yanked. Ramsey relieving him. Davidson pitched his usual game, keeping the Grand Billiards to a 5 score, getting 12 strikeouts to his credit. There were three home runs made during the game. The crowd was one of the largest that has attended a game there this season. Lake Villa meets the strong State Line team next Sunday.

Mind Wizard to Entertain at Sylvan Beach

What promises to be the outstanding feature of Sylvan Beach will be held on July 18, when the world-famed telepathist, Eugene de Rubini, whose startling feats of thought transference prove him to be professed of something more than the recognized five senses.

On the afternoon of Rubini's appearance at Sylvan Beach he will be met by a large committee of prominent local men. After a few preliminary experiments, three members of the committee will be presented with a needle which they will proceed to hide somewhere within a radius of five miles. Rubini will be closely guarded during their absence, and upon their return will undertake to find the needle guarded only by their unspoken mental commands.

Rubini's evening of weird and startling mental feats should prove a highly sensational success as a popular attraction as well as a scientific event long to be remembered. Those who attend my dance free after the performance. Mr. J. E. Brook, Dr. Worriner, Dr. Beebe, Miss Elizabeth Webb and J. L. Horan have promised to head the committee.

St. Ignatius' Church Notes

Church Services
Holy Communion 7:00 a. m.
(Except 3d Sunday of month)
Church School 8:45 a. m.
Morning Prayer 10:00 a. m.
Holy Communion (3d S.) 10:00 a. m.
The above is a list of the regular services of St. Ignatius' Episcopal church. Read, mark, learn and inwardly digest.

Last Sunday the new schedule of services was put into operation and showed very good results. The Holy Eucharist was especially well attended. It is a blessed privilege for us to have a weekly Eucharist, and it will mean much spiritual progress.

The priest-in-harge arrived last Sunday morning without mishap and immediately after the early service went on to St. Andrew's mission of Grayslake where he held a second Eucharist and from there to Libertyville, where the regular service was held.

At the second service of last Sunday the new boy-choir made its first appearance and did very well. We hope that the good work will continue, because it is a very great addition to the worship of Almighty God to have a vested choir, and it is the usual custom of the Episcopal church.

Next Sunday is the fifth Sunday after Trinity and since it is the third Sunday of the month Father Batty will be in Antioch for the late service and there will be no early service. Church school at the regular time, 8:45.

On Friday of this week the Ladies Guild will hold a meeting at the home of Mrs. Daniel Forbes next to the New Columbia hotel on the north end of Fox Lake. It will start at 2 in the afternoon, and the members of the Guild are especially urged to be present at this meeting, because of the kindness of Mrs. Forbes.

The members of St. Ignatius' church are asked not to forget or neglect the nation-wide campaign side of their envelopes, as our apportionment will be met this year as usual.

Lake visitors are especially urged to come to the church and bring their guests. The church is open to all people in the morning and afternoon over Sunday. If you are not invited to church? If you are not invited to church? If you are not invited to church?

Midnight Blaze Destroys Chas. Wilton Property

Shortly before midnight Sunday lightning struck the barn on the Charles Wilton farm, two miles north of Antioch. Mr. Wilton was awakened by the cracking of flames and the light of the fire. With the assistance of friends from nearby farms, he tried to rescue his farm implements. Fortunately his cattle were in the pasture and he succeeded in saving two horses.

An appeal to the Antioch fire department was made half an hour after the lightning struck, and when they arrived the structure, with the milk shed and two stacks of hay in the rear of the barn were in a mass of flames. No attempt was made by the firemen to check the flames and a drive through the storm was made by those who responded for naught.

Two Youths in Auto Accident Friday Evening

A Studebaker car, being driven by Arthur Mason, son of Geo. E. Mason, of Channel Lake, was almost completely demolished when it turned turtle on the Grass Lake road near Grass Lake corners. Riding in the car with young Mason was Walton Beck, a boy chum of Chicago, also staying at Channel Lake. The two boys were traveling at great speed when the car left the road, turning over four or five times and smashing the entire top off its moorings, breaking the left front side door and smashing the hood and radiator out of shape. There was not one square yard on any part of the machine that was in its original shape.

Young Mason, who was driving, escaped by jumping out the side door that was afterward broken off, but that was afterward broken off, but Walton Beck didn't fare quite as well, and went over with the machine and was very seriously injured and was removed to the Victory Memorial hospital at Waukegan, where it was reported he will recover.

The car, a black Studebaker six, was purchased about two weeks ago and a Chicago wrecking company took the machine to Chicago.

Unclaimed Letters

There are unclaimed letters at the Antioch postoffice for Miss Esther Peterson, Eldore Susan (Howard) Hatch, Mrs. Wm. E. Haines, Fritz Henry, Mrs. Bert Clement, Otis Andreen, Wm. S. Rientenstein, Miss Frances Proffert, Fred Freichler and George Webb.

Assessment Rolls

The Assessment Rolls for the towns of Antioch, Newport and Lake Villa will appear in next week's issue of The Antioch News—Phone in your order if you are not a subscriber to this paper.

MILK PRICE INCREASE DUE TO NEW PLAN

Claim Is Made By the Milk Market Reporter in Its Last Issue

DEALERS STILL IN CONTROL

The Milk Market Reporter in last week's issue has this to say in regard to the increase in milk price granted the producers in the Chicago district:

"The first tangible result of the new Chicago milk marketing plan is seen in the action of the big dealers in increasing the price of milk from \$1.60 (the June price) to \$2 for July and \$2.05 for August. This increase, which will be worth several hundred thousand dollars to the producers of the district, is due solely to the new Shapiro contract and the marketing plan of the committee of nine.

"The increase was made voluntarily by the dealers. They control the market now, just as they have done for months past. They were in a position to set the July and August price, figure they saw fit, and get it. The farmers of the district are powerless to compel them, than \$1.60 for July and \$1.65 for August.

"Why did they do this? Simply because they recognized that the new milk marketing plan had devised a plan for selling milk that would give the dealers the power to set the price, and give that power to the farmers themselves. Several of them admitted as much.

"The dealers do not want the farmers to set the price. They do not want a strong marketing company. They do not want the farmers to be in a position to demand 50 per cent of the price the consumer pays for milk.

"So they adopted the plan that private handlers of the farmer's product always adopt under similar circumstances. They raised the price, not because of love for the producer, but because they hoped to discourage farmers from supporting their organization.

"Why sign the new milk contract?" the dealers and their friends will say. See what you are getting for July and August milk."

"We are duly thankful for the July and August price. But we are also interested in what we are going to get in July and August next year, and in all the other months we are milking cows.

"The dealers gave us the July and August price. The dealers can take it away and doubtless will if they are successful in inducing producers to turn their backs on the new contract. Even at that they haven't given us so much. The new price gives us only about 25 per cent of the consumer's dollar. We want at least 50 per cent.

"We will be waiting at the church long time if we expect the dealers to give it to us.

"Are we going to be fooled by the old tactics that have broken up so many farmers' marketing organizations? Are we going to be so thankful to the dealers for raising the July and August price that we will let them go on fixing it in the future?

"Not if we are wise. We will let the increased price and be glad to get it. We will give the credit where it belongs—to the new contract and marketing plan. Then we will sign the new contract just as fast as we can, knowing that as soon as the majority of us have done so, the day of fixing by dealers will be over, and then instead of being thankful for 25 per cent of the consumer's dollar, we will take 50 per cent as a matter of course."

John O'Brien Dies of Diphtheria; Ill 3 Weeks

John O'Brien, the only son of Fred Brown, died early Friday morning after an illness of about three weeks of diphtheria. Young O'Brien was fourteen years old, and had been treated from Beanhill school this year. The funeral services, which were private, were held from their home interment at Millburn.

Bristol News Briefs

Mr. and Mrs. H. B. Gaines spent Saturday and Sunday in the city.

Mrs. Stead of Chicago is spending a couple of weeks as the guest of Mrs. C. E. Williams and family.

Mrs. Myra Gaines has purchased a new coupe and will drive to and from her work in Kenosha as assistant to Dr. Stevens.

Arthur Bloss of Salem is operating a picture machine in the hall every Saturday night the town is furnished with screen productions and very good music.

Several carloads from here motored to Engle Lake and enjoyed a picnic luncheon the Fourth.

The St. Peter's boy choir of Chicago, are taking a two weeks outing at Sand Lake and a large number from here availed themselves of the opportunity to attend Vespers late Sunday afternoon and hear the boys sing.

F. O. Eddy of Kenosha, called at the home of F. W. Fox the Fourth.

Mrs. Vera Smith underwent another operation on Thursday. The surgical work was performed by Dr. Auwers assisted by Dr. Becker of Silverlake. The patient is improving.

Born to Mr. and Mrs. Jess Stewart on Sunday a baby girl.

Miss Carrie Murdock of Union Grove is visiting friends here.

Mr. and Mrs. Harold Bryant and family of Antioch, were guests at the Wm. Bryant home Sunday.

Misses Marguerite Grice and Georgia Bacon of Antioch spent the week of the Fourth with Mrs. Wm. Bryant.

Mr. and Mrs. Gothen, Mrs. King and Violet were Kenosha visitors Friday.

Mr. and Mrs. Harry Judson and family of Evanston were guests at the home of Mrs. Judson's brother, Wm. Bryant on Saturday and Sunday.

A car was overturned just south of the village Sunday on account of too fast driving. Some of the occupants were taken to the doctors office because of serious injuries.

The W. C. T. U., will meet with Mrs. E. L. Stonebreaker Friday afternoon of this week.

Mrs. Ida M. Stevens has returned from a visit with her daughter at Madison, Wis.

Mr. Frank Leavay and old resident of the village was stricken last Friday when he was found on the floor of his room suffering from high blood pressure resulting in a slight stroke. He is under the attention of a doctor and resting easy at this writing.

Mrs. A. C. Hartell has a brother and friend visiting her from Stevens Point, Wis., incidental to a trip overland to California.

Miss Mitchell is entertaining a niece and nephew from Joliet.

Eugene Edwards a son of Mr. and Mrs. Elmer Edwards had the misfortune to fall through a shoot in the hay mow onto a cement floor a distance of twenty-five feet last week, he was confined to the bed for a couple of days but is able to be out again.

Charles Ginter and daughter Edith accompanied by Ruth and Eunice Diken were Kenosha visitors Friday.

The stork also visited the home of Mr. and Mrs. Ray Gates accompanied by a baby girl on Sunday.

Mrs. Joe Walker and son called at the home of Mr. J. A. King Monday.

Announcements are out of the marriage of Edward M. Stannard formerly a resident of Bristol now of Berkeley, Calif.

Mr. and Mrs. Horman and family of Kenosha visited at the home of Mr. and Mrs. Harry Judson Sunday. The two families motored to Harrington camp in the afternoon.

Mr. and Mrs. Chas. Parkin Des Moines, Iowa, are visiting at the home of Mr. Parkin's daughter Mrs. Wesley Williams, also Mrs. Parkin's brothers, Chas. and Mark Castle.

Miss Gladys Shunway and girl friend, Racine, were over Sunday visitors of her father, Geo. Shunway.

Miss Marie Cornwell and friend of Kenosha were Sunday visitors at the home of her aunt Mrs. C. M. Bishop.

Mr. and Mrs. C. L. Curtis Kenosha were over the fourth guests of F. W. Fox and wife.

HICKORY

Edith Pedersen of Wadsworth visited the week with her sister, Mrs. Chris Paulsen.

Grace Neveler is spending some time at the home of her brother, Barney Neveler.

Pauline Pullen spent Sunday at Milwaukee.

Frazier Hollenbeck of Kenosha spent Sunday with home folks.

Arthur Steiner of Lake Forest, who has been spending the past week with his aunt, Mrs. Protine, returned home Sunday.

Mrs. O. L. Hollenbeck is on the sick list.

Paul Protine and daughter went to Spring Grove Monday.

Miss Annie Dorsey was pleasantly surprised on Monday evening when about 50 of her friends gathered at the home of George White, to help celebrate her birthday. The evening was spent in playing games, after which dainty refreshments were served. At a late hour the guests departed.

Grayslake Hears W. F. Schilling on Coop. Marketing

W. F. Schilling of Northfield, Minn., spoke on the organization of cooperative marketing before a large audience at the opera house at Grayslake Tuesday night.

Mr. Schilling is speaking in this section for the interest of the Marketing company and thus far has interested the farmers of the Chicago district who have had the privilege of hearing him.

Mr. Schilling is president of the Twin Cities Milk Producers Association, a co-operative marketing company which supplies St. Paul and Minneapolis with milk and vice president of the National Milk Producers Association.

The producers in the neighborhood of the Twin Cities are receiving more money for their product than the farm-

T. N. DONNELLY & CO.
Loan and
DIAMOND
Broker
Diamonds, watches and all kinds of jewelry at less than cost, at half the price you pay regular stores.
20 North Dearborn Street, Chicago

ers in the Chicago zone while the consumer at the same time is paying less for the bottled milk. In the Twin Cities, Mr. Schilling intends to tell the Chicago producers the reason why.

No other organization in the United States is working under a plan so nearly identical with the Committee of Nine plan and the reason for its success will be covered by Mr. Schilling in his series of 12 speeches.

Before addressing his first gathering of producers in Porter County, Mr. Schilling will be the guest of the Valparaiso Chamber of Commerce Wednesday noon. He urges the close co-operation between farmers and business men and tells how community work started in his home town of Northfield. Several years ago when the farmers were forced to give up the raising of wheat and oats because of the chinch and army bugs they chose dairy cattle industry. In the development of the industry the business men of Northfield took an important part by co-operating with the farmers wherever they could be of assistance.

He strongly urges farmers throughout the Chicago zone to co-operate in a same manner in marketing their dairy product, and says it will benefit both the producer and consumer in just the same way as it has benefited them in the Twin Cities.

Mr. Schilling explained that the Twin

City farmers have their own agents to do the testing of milk, and said Illinois, Indiana and Wisconsin farmers are to blame if they do not see to it that they get a satisfactory test on all products.

"Farmers of Minnesota are receiving \$2.80 a hundred pounds for milk," he said, while the consumers are only paying the dealers 10 cents a quart. This price was made possible by less expense to the dealers in handling the product and consequently less spread in the price between the producer and consumer.

"The worst feature is that the farmer has no check on the testing of his milk and has to take the word of the buyer for its test. His check contains that record and when he cashes it he loses the record, so he has no recourse. If we had a co-operative association we could stop all that and the farmer would have supervision over the testing of his own milk."

Announcement

That meeting of the stockholders of Williams Bros., Antioch Store, Inc., will be held July 20, 1922, at 8 p. m., at their store for the purpose of absolving from liability as such.

Big Crowd at Farm Bureau Decennial

(Continued from page 1)

The pageant at the beginning went back to the pioneer days when there were no organizations. A number from Diamond Lake had part in the "Planter's Scene," in which the quaint costumes of yesterday, the stage coaches, the old farm implements were shown. Then was displayed the start of the farmers' institute, and of the extension service of the various colleges of agriculture.

Step by step the farm bureau epic was unfolded by the four thousand farmer actors to the time of the formation of the first two Illinois farm bureaus in DeKalb and Kankakee counties. Many of the actors were only going over the scenes that they had once participated in in real life.

After showing Illinois dotted with well established farm bureaus, the pageant displayed the need of the farmer for a larger, a state-wide organization. It traced the beginnings of the Illinois Agricultural association in 1916

up to the point of its present membership of 100,000 in 95 counties. It showed the growth of the American Farm Bureau Federation from its start in 1919 to its present membership of one million in 47 states.

The immense crowd took several hours to get out of the city in automobiles after the close of the pageant. Approximately 150 from Lake county were a part of the crowd.

The celebration was declared by officials of the American Farm Bureau Federation to be the greatest event ever staged by farmers anywhere.

Hedgehog and Porcupine. The hedgehog and porcupine are entirely different families. The true hedgehog does not occur in this country. The porcupine is found in both the Old and New World. The old porcupine are terrestrial and fossorial, while the species found in this hemisphere are arboreal and not fossorial.

How Arizona City Got Name. Phoenix, Ariz., was built near the well-defined ruins of an ancient pueblo. Darrell Duppa, a scholar who was with the men who chose the spot, said: "Let us call it Phoenix, for here, upon the old, a new city shall rise," and told them of the bird in mythology called phoenix which arose from its own ashes.

Local and Social Happenings

Mrs. C. B. Harrison had company from Kenosha on Sunday.

The Antioch Independent Oil Co., has installed a 15,000 gallon storage tank for gasoline at the 800 line depot.

Misses Emma, Elsie and Stella Zeller, of Chicago, are spending their vacation with their parents at Cross Lake.

Mr. and Mrs. Fred Johnson, of Clinton, Ill., are visiting at the home of his brother, A. B. Johnson.

Miss Zeta Milan and friend, of Chicago, spent the past week at the home of Mr. and Mrs. Ben Van Duzer.

The Misses Clara and Estella Moores and Mrs. J. F. Kramer, of Elgin, spent Sunday at the A. B. Johnson home.

Mrs. Ada Overton, of Chicago, is spending a two weeks vacation at the home of her parents, Mr. and Mrs. Chas. Lux, Sr.

On June 21 occurred the marriage of Miss Julia Hockney, daughter of George Hockney, and Douglas Leese, at Waukegan, by the Rev. Ganster.

Mr. and Mrs. Andrew Harrison entertained Mr. and Mrs. W. E. Douds and son over the Fourth. Mrs. Douds and son remained the rest of the week.

The Hickory Cemetery society will hold its annual summer sale of useful and fancy articles on Thursday afternoon, July 20, at the Hickory church. Supper served from 4:30 until all are served.

Card of Thanks

We wish to thank our neighbors and friends who so kindly helped us during the illness and death of our darling son also those who contributed flowers.

Mr. and Mrs. Fred Brown and Evelyn.

Really Serious Horrors.

Nothing that is admittedly and unmistakably horrible matters very much, because it frightens people into seeking a remedy; the serious horrors are those which seem entirely respectable and normal to respectable and normal men.—Bernard Shaw.

Mephistopheles.

The name Mephistopheles, is from the Greek, and it means "He who loves not light." The name was given to a Satanic personage of the Middle Ages, who in the Faust legend is appointed to obey Faust's commands, according to the terms on which the latter has sold his soul to Satan.

Lake Co. Well Represented at Testing Plant

The following pure bred Holsteins from this county are making a good showing at the Holstein cow testing plant operated by the Holstein Association of Illinois:

O. F. C. Chicago Pletje 582660, owned by Lloyd Ritzenthaler, of Prairie View, produced in 121 days 10167.9 lbs. milk and 441.67 lbs. butter. May production, 2275.4 lbs. milk and 87.32 lbs. butter.

Johanna Belle Spofford Korndyke 436558, owned by Lloyd Ritzenthaler, produced in 121 days, 9962.1 lbs. milk and 407.71 lbs. butter. May production, 2503.6 lbs. milk, 96.39 lbs. butter.

Tilly Greenwood Rag Apple, 613070, owned by A. J. Stahl, of Prairie View, produced in 75 days, 4692.7 lbs. milk and 190.94 lbs. butter. May production, 1886.3 lbs. milk and 70.94 lbs. butter.

Wildwood Bessie Bee 479722, owned by E. F. Clark, of Lake Villa, produced in 78 days 6185.2 lbs. milk and 243.72 lbs. butter. May production 2429.4 lbs. milk and 103.76 lbs. butter.

Evelyn Jewel Pontiac, owned by G. R. White, of Antioch, produced in 81 days 7242.2 lbs. milk and 293.13 lbs. butter. May production, 2673.0 lbs. milk and 112.27 lbs. butter.

Princess Verie Colantha 437289, owned by H. K. Vose, of Gurnee, produced in 82 days 6726 lbs. milk and 287.5 lbs. butter. May production, 2252.4 lbs. milk and 93.39 lbs. butter. 2595.9 lbs. milk and 96.10 lbs. butter.

Ruby Spot Prilly 318447, owned by Earl Kane, of Area, produced in 80 days 5917.8 lbs. milk and 265.09 lbs. butter. May production 2252.4 lbs. milk and 99.39 lbs. butter.

Menoken DeKol Sadie Vale 557669, owned by M. H. Peterson, of Libertyville, produced in 75 days 3855.7 lbs. milk and 164.91 lbs. butter. May production, 1829.3 lbs. milk and 69.96 lbs. butter.

Aaggie Cornucopia Columbo 396416, owned by Rouse Bros., of Area, produced in 35 days 2310 lbs. milk and 121.07 lbs. butter. May production 2111.2 lbs. milk and 110.31 lbs. butter.

Mercedes Belle Pet Pontiac 509899, owned by Rouse Bros., of Area, produced in 61 days 2443.5 lbs. milk and 191.69 lbs. butter. May production 2015.7 lbs. milk and 75.34 lbs. butter.

Floy Bonibel Pietertje, owned by Clement Bros., of Area, produced in 72 days 5965.1 lbs. milk and 194.93 lbs. butter. May production 2708.9 lbs. milk and 80.86 lbs. butter.

Clement Bros., of Area, produced in 83 days 4533.2 lbs. milk and 182.25 lbs. butter. May production, 1547 lbs. milk and 61.85 lbs. butter.

Only the best cows in the state are admitted to this plant and but sixty of them can be taken at a time. They are under the care of an expert feeder to test them out for their producing ability so as to determine whether to keep their offspring as foundation stock.

When we recall that the average cow of Lake county produces only about 3500 pounds of milk and 150 pounds of butter in a year you will readily see that these 12 cows are worth a large herd of ordinary cows. These cows will be bred to Kink Colantha Aaggie Clothide No. 249457, the fine bull at the plant.

Highest-Priced Tobacco.

The highest-priced tobacco grown in the world is produced in a certain area near the western coast of Cuba which is more than twenty-five miles square. The fine aromatic tobacco grown there can be produced nowhere else.—Brooklyn Eagle.

Beauty in the South.

In the South the craps myrtle becomes a small tree and turns a brilliant bronze almost or quite red, says the American Forestry Magazine. It is much grown for its summer and early fall flowers, but it also has value for the color of its ripening foliage on the approach of cold weather.

A Souvenir.

The Boston Transcript recently ran across this in a story: "She held out her hand and the young man took it and departed."

Two teaspoonsful of Tanlac in a little water, taken three times a day just before meals, will make you eat better, sleep better and work better. S. H. Reeves.

We aim to please Everybody

We give honest value for the dollar and guarantee to sell better goods for less money than any other store in this city. The advantage that a buyer possesses in dealing with us is apparent. He gets more for his money; has more to choose from; goods are newer. We ever stand ready to refund purchase money in case anything bought here does not come up to our representation. Methodist Episcopal Church News

SUNDAY SERVICES:
 Sunday School 9:45
 Morning Service 11:00
 Epworth League 7:00
 Evening Service 7:45

"Remember the Sabbath day to keep it holy."

Remember the good motto, I'll never miss church if I can help it."

Everybody should study the Bible earnestly with prayer every day.

The Ladies Aid are preparing for their midsummer bazaar to be held on July 27.

Better attendance in Sunday School last Sunday, even though many are away on vacation. Everybody should be in Sunday School.

Last Sunday morning's theme was "Our Supreme Tragedy." Jacob's words, "Surely God is in this place and I knew it not," was the text. The fact that Jacob had failed to sense the presence of God was declared to be his tragedy; and the same thing is the supreme tragedy of all of us and of the world—we fail to sense the presence of God.

"God is a Spirit," Jesus told us, and being spirit, he can be everywhere all the time. He is present in every inch of space and every atom of material things about us. He is all around us and within us.

In the depths of every soul, God has made a secret place, a place for His own dwelling, in the very center of our being. There, He is always present. There, He waits for us to recognize Him, waits to speak with us,

to give us strength and beauty and goodness and joy. Our tragedy is that God, thus sitting in the palace of our souls is unseen, unfelt, unknown, unrecognized, forgotten, neglected and we remain spiritually and morally weak and poor and helpless and are lacking the goodness and joy that make life full and abundant and rich and sweet and radiant and glorious.

Those who do force themselves to think on God, to pray, to study His word, to entertain Him, commune with Him, love Him, praise Him, work for Him, yield to His control, these are the real people of the earth. They are the people who stand when others fall. They are the ones who keep things going when others would stop and let everything go to ruin. They have the strength to stand against the tide of wickedness and cruelty that sweep over communities and over the world.

There never was a time when it was so hard to keep ourselves in a condition in which we do recognize God and sense His presence as now. Much wealth, many inventions and the glare and blare and jazz and jargon and glitter of things just now, make their constant appeal to the eyes and ears and hearts and minds and fill the whole field of our consciousness unless we set our faces as a flint to shut the doors of our souls to the outer world of mere things and shut ourselves in alone with God for a good period of time every day.

This we must do, for it is the only hope we have as individuals and it is the only possible hope for the world—that men and women and boys and girls—each as an individual—shall, for a considerable time each day, shut out the world of mere things and sit in the palace of their own souls with God and held communion with Him, feel His presence and His holy love, and so be transformed into His likeness.

EVERY SUBSCRIBER A STOCKHOLDER

This Is Aim of Illinois Bell Telephone Company in Offering A. T. & T. Stock to Public. Employees Will Assist in Sales.

To assist in obtaining a wider ownership in the telephone industry, the Illinois Bell Telephone Company, through its employees, has planned to sell a limited amount of stock in the American Telephone and Telegraph Company to the public of Illinois.

This is not new stock of the American Company, but stock which is expected to be obtained and sold at the market price. The purpose is to effect redistribution and place the shares in the hands of telephone subscribers and users. Announcement of the plan was made in the Bell Telephone News, the official magazine of the Illinois Bell Telephone Company.

Arrangements have been made for the sale of this stock in every exchange of the Illinois Bell Telephone Company, and the details will be handled by the commercial representatives. Employees in all departments, however, will assist in obtaining new shareholders.

The Bell System is required to provide approximately \$215,000,000 each year for additions and replacements in order that telephone facilities may be furnished those who want service. It is more than "most" European nations spent annually for public purposes before the war. It is two and one-half times the annual expenditure of the United States government the year before the Civil War, and it is more than the annual pre-war expense of Spain, Brazil, Argentina or Canada.

MOST MILES per DOLLAR

Firestone

GUM-DIPPED CORDS and Their High Mileage Records

The high mileage records of Firestone Cords continue to emphasize the fact that Firestone methods are different and better. These records, steadily increasing in number and in mileage totals, justify the Firestone contention that there is one best way to build tires.

Among the primary sources of Firestone extra mileage is double gum-dipping—the saturation of the cord piles in a vat of liquid gum—thus coating each cord and virtually eliminating internal heat and friction.

Another is Firestone air bag curing, with its 200 pound pressure, which places every cord accurately and equalizes the tension.

By blending the rubbers of different plantations and types, and by tempering it before mixing, Firestone men add still more mileage.

Many cord tires are good—a few are better—Firestone users say one is best.

Those who have already experienced Firestone mileage, have stopped shopping and experimenting—they have made these cords standard equipment. Investigate your friends' success with Firestone Cords—and buy your next tire accordingly. Come in and get your share of extra mileage.

FABRIC	CORD	Regular Size	Extra Size
30 x 3 Oldfield "999"	30 x 3 1/2	11.75	12.25

NORTHERN ILLINOIS IS—
 A good place To Live In
 A good place To Do Business In
 A good place To Invest Your Savings In

Demands for Electric Power Grow Faster Than Population

THE CHART opposite shows how the output of the electric plants of the Public Service Company of Northern Illinois has grown in the past 10 years.

THE USES OF ELECTRICITY, as well as GAS, have multiplied so rapidly that the Company has an ever increasing business.

TO PROVIDE THE VITAL PUBLIC SERVICES electric power and gas manufacturing plants have been built and enlarged, hundreds of miles of electric and gas transmission and distributing systems have been constructed and the funds of thousands of investors employed at fair wages.

ALL ESTIMATES of future requirements for the Company's products indicate an even more rapid increase of public demands for electricity than in the past. The same is true of gas, which now has more than 1,000 industrial uses besides its employment in the households.

THAT BUSINESS in Northern Illinois is on the upturn is indicated by the fact that in the first five months of this year, sales of electric power by the Public Service Company have increased 24 per cent. Sales of gas show an increase of 12 per cent as compared with the corresponding period of 1921. This is proof of more and better business in the territory.

THE TRACTOR ON TRIP TO CANADA

City of Settlers From United States on Way to the Land of Big Crops.

Settlers on their way to and through the land do not always rely on the roads for transportation. Here, for instance, is a photograph of a

party from one of the northern states on the way to their new home near Lake Winnipegosis, Manitoba. They were a sturdy, self-reliant lot and carried with them a full complement of farm machinery. With the tractor outfit they intended to commence rather extensive operations this spring on the land which their scouts had already inspected and reported on favorably as to its productiveness.

At almost every point on the Canadian border where there are located means for admitting settlers, the reports are that it is almost a daily occurrence to admit settlers from states as far off as Texas who have adopted the automobile as a means to

carry themselves and their families to the country of their choice. Such settlers are bound to succeed. Some of them go two or three hundred miles inland, and select their homes in the park districts of Manitoba, Saskatchewan and Alberta. Others purchase improved and unimproved farms in the more thickly settled districts in the southerly and central parts of these provinces. Wherever they may go, they are certain to secure land of certain possibilities. They will see grain crops of high value, wheat that will produce from 20 to 40 bushels per acre, oats giving high yields, barley a certain producer, and grass and fodder in quantity and quality that

will satisfy them that the cattle and stock raising possibilities are fully as good as they have been told.

The reports from all parts of Western Canada at the present time fully bear out the most optimistic expectations and hopes of the early days of settling. Evidence of the splendid growth of this year is the fact that alfalfa was cut on the 15th of June and yielded nearly two tons to the acre.

Corn planted on the 23rd of May, on the 5th of June was showing several inches above the ground, and making glad the heart of the farmer who had built his slo, which he hoped to fill in the latter days of August. Advertisement.

Brief and Effective.

HARDING ORDERS MINING RESUMED

President Tells Miners and Operators to Submit to Arbitration.

U. S. TO NAME COMMISSION

Executive Notifies Both Miners and Operators Mining Must Be Resumed at Once—Must Agree to Arbitration.

Washington, July 12.—President Harding on Monday delivered the government's final ultimatum to the warring coal miners and operators.

At a brief, tense session at the White House, the President flatly informed them that coal mining activities must be resumed at once and that they must submit the disputes which they apparently are unable to iron out to the arbitration of a commission appointed by the government.

In his talk to the coal operators and miners the President said:

"The information has come to me that your conference is deadlocked or at the best attempting to agree upon plans which will require extended time to work out. I have said heretofore that the government prefers you, who are parties to the dispute, should settle it between yourselves because you best understand all the problems involved.

"The government cannot settle it for you. It will force no man to work against his free will; it will force no man to employ men against the free exercise of an employer's right. The government will not be partisan, but the government is concerned with coal production sufficient to meet the industrial and transportation requirements of the country and to safeguard against fuel famine when winter comes again, and it is desired to have production resumed at once.

"Your government does desire to be helpful. With such a thought, therefore, I submit to you the following proposal:

"Mine workers are to return to work on the scale of wages which expired last March 31 and mines now idle because of strike or suspended operations to resume activities with no interference with activities of mines now working.

"The 1922 scale to be effective until August 10.

"A coal commission to be created at once, consisting of three members selected by the mine workers, three members selected by the mine operators and five members to be named by the President. All decisions by this commission shall be accepted as final.

"This commission to determine, if possible, within 30 days from today, for the miners on a strike, a temporary basic wage scale which shall be effective until March 1, 1923.

"In event that the commission is unable to report its scale by August 10, it shall have power to direct continued work on the 1922 scale until a superseding scale is ready.

"The commission shall investigate exhaustively every phase of the coal industry. It shall reveal every cost of production and transportation. The President will ask congress to confer authority for the most thorough investigation and make appropriations necessary to do such work.

"The commission shall make recommendations looking to the establishment or maintenance of industrial peace in the coal industry, the elimination of waste due to intermittency and instability and suggest plans for dependable fuel supply.

"I have taken this short cut to a resumption of operations because I believe it to be in the interests of public welfare.

"It is that simple form of adjusting disputes which answers the call of good conscience and in just civilization. When two great forces do not agree, there must be a peaceful way to adjustment and such an arbitration opens the way.

"I do not expect a reply without due consideration. Please take the proposal to separate conferences. I wish you to appraise the situation, weigh your responsibilities and then answer this proposal as you wish to be appraised by American public opinion.

"I am speaking first of all for the public interests, but I am likewise mindful of the rights of both workers and operators. You are also inseparable part of that public interest. With due regard to all concerned, it ought to be easy to find a way to resume activities and command the approval of the American public."

Bandit Gets \$25,000 Gems. Los Angeles, Cal., July 12.—A daring daylight bandit, who gained entrance to the house by posing as a telephone repairman, locked Miss Susanna Fair and her maid in a closet, escaping with jewels valued at \$25,000.

Rain Makes Farmers Happy. Chicago, July 12.—Farmers throughout Illinois, Wisconsin and Iowa and states to the west are jubilant over rain that drenched this district between midnight and morning. Chicago's rainfall measured .80 inch.

NEGRO'S MEMORY A PUZZLE

Of Limited Educational Attainment, Colored Man Has Wonderful Fund of Useful Information.

Jim Gilmore, a negro aged fifty-six, who lives in the town of Greenville, Tex., is said by scientists who have examined him, to possess one of the most remarkable memories known. With apparently a small amount of educational training Gilmore is able to quote any verse in the Bible suggested to him. He answers any questions pertaining to the Civil war, the Spanish-American war and the late World war, giving dates of all outstanding historical events. He can name every station and water tank from San Francisco to New York on the principal transcontinental railroads.

There seems to be no limit to the amount of poetry Gilmore can quote. "The Sinking of the Titanic," numbering 40 verses, and "The World War From Beginning to End," in 60 verses and three parts, is another literary achievement of which he can boast. He has traveled extensively and possesses an excellent vocabulary for one of limited education.—Exchange.

Her Achievement. "My wife got after a blue racer with a hatchet out in the yard yesterday," related Gnp Johnson of Rumpus Ridge. "After going twice around the track, as it were, she kitched her foot in a mess of balling wire and fell and sprained her arm, if she didn't break it outright. But, by cripes, she shore cut off that there snake's head as she went down!"—Kansas City Star.

WAS UNDER NO OBLIGATION

Transaction of Youthful Newspaper Proprietor Had Been on a Strictly Business Basis.

George developed a journalistic instinct at the early age of fifteen. With the consent of his father and some assistance from the same source he bought an "amateur printing outfit" and started the Kinkerville Monthly Journal, subscription price 50 cents a year, payable in advance. "I suppose you call yourself the editor and proprietor of this office," remarked an envious young associate who dropped in at his "sanctum" in the basement of the paternal dwelling one day.

"Of course I do," responded the youthful journalist. "I don't owe a cent on it."

"Proprietor! Umph. Everybody knows you got \$25 from your father to start it with."

"Yes, sir," stoutly rejoined George. "And his subscription for the Journal is marked paid fifty years ahead on my books!"—Pittsburgh Dispatch.

Half a Dozen Fines Did It. "Mr. Groomson is a changed man since he bought a car."

"For the better?" "Yes. There was a time when he wouldn't take anybody's advice, but now he lends an attentive ear to traffic policemen."—Birmingham Age-Herald.

We appreciate hard facts when they come in the shape of silver dollars.

British Columbia Goat Farms. There are several farms in British Columbia where goats are raised exclusively and which have herds of several hundred each. These farms not only make excellent profits on milk which is shipped to Vancouver, Victoria and other cities for the use of children and invalids, but on young animals that are sold to supply the rapidly developing market.

Goat breeding is being suburban city dwellers. "Go Down Moses" small towns and farmers. Goats are hardy animals and if permitted a good range will rustle their own living the year around. If kept confined, their upkeep is expensive while their milk sells for a much higher price than cow's milk. Yields of six quarts a day are common.

Quiet. "They're very modest, aren't they?" "Very. Even insisted on being divorced quietly."

If a man has never made an ass of himself, it is probably because Nature beat him to it.

There may be plenty of room at the top, but victims of that tired feeling never reach it.

Gentlemen are necessarily concealed because a gentleman never forgets himself.

Labor worketh a harshness on sorrow.—Montaigne.

Fat and fussiness can both be walked off.

Health is Wealth Itself

—and depends more upon the selection of proper food than upon anything else.

The reason is simple—the right kind of food digests promptly and is absorbed into the blood for building sound tissue; while food that digests slowly may ferment and lead to serious conditions.

Grape-Nuts—the delicious cereal food made from whole wheat flour and malted barley—

is so easy to digest that even delicate people and young children thrive on it.

This is only natural, because Grape-Nuts is baked for 20 hours, which transforms and partially pre-digests the starch elements, resulting in easy digestion and quick assimilation.

Served with milk or cream Grape-Nuts is a complete food—and along with its nutritive qualities is that wonderful flavor!

"There's a Reason" for Grape-Nuts

Sold by grocers everywhere!
